WHY?

"Only librarians like to search; everyone else likes to find."

- Roy Tennant -

Web-Scale Discovery

- One stop shop for the library's resources

- Search everything with one click

- Simple. Easy. Fast

- Find relevant results regardless of content provider

- No need to sift through unfamiliar database names

Only One Way to Meet Users' Needs

▶ Built from scratch and built to purpose

- ▶ Architected like Google and other Open Web solution
- ▶ Built to handle large data and deliver results fast
- ▶ Pre-Harvested content in a single unified index
- ▶ Strong agile integrated API
- ▶ Moves libraries beyond federated search
